SENIORS

Painting for Seniors

Federation Homes

Many residents at Federation Homes enjoy painting and would like to improve their skills. Your grant can help pay for residents' weekly watercolor painting classes, which are taught by professionals. Rocking Around the Clock

Hebrew Senior Care

Rocking chairs provide a surprising source of exercise. Rocking stimulates blood circulation, maintains muscle tone and supple joints for seniors who get minimal exercise. Rocking chairs also help combat insomnia by lulling seniors to sleep. Please consider helping in the purchase of eight rocking chairs with cushions and help SummerWood residents rock around the clock!

Your Table is Ready

Hebrew Senior Care

First impressions matter, and that goes in all modes of life. Adding a Hostess Podium Stand to the SummerWood dining room will set a positive tone and atmosphere for our residents and influence how they feel about their dining experience. Your grant will help our staff greet our residents with style and class.

SPECIAL NEEDS AND HUMAN SERVICES

Mental Health Counseling

Jewish Family Services

The national mental health crisis has brought unprecedented need within our community. Therapy can save a person in crisis, but mental health support is, unfortunately, expensive. Even with insurance, many clients still struggle to cover the cost of copays. Please consider recommending a grant to defray costs. All funding will go directly to paying for therapy for JFS clients.

Covering Vital Needs for Holocaust Survivors

Jewish Family Services

JFS supports essential needs for low-income Holocaust survivors, ensuring they are able to age at home with dignity. German government reparations cover a portion of the cost, but there are strict guidelines, and certain needs fall outside of their scope. Your grant recommendation will help JFS support survivors with personal homecare needs that would otherwise go unmet.

Your grant will help offset the increases that have tremendous impact on the Jewish Association for Community Living's overall budget. Thank you for your consideration.

A STEAMy Purim Celebration!

Solomon Schechter Day School

Imagine students developing a meter that measures the noise level of people "booing" as Haman's name is being read from the Megillah? You can help students explore the excitement of invention and solving problems. Your grant to Schechter's Purim STEAMfest will teach K-8 students to identify a challenge, research and propose a solution, and create a blueprint or prototype using the principles of STEAM – Science, Technology, Education, Art and Math. Students will foster the skills and knowledge that modern-day scientists, engineers, and academics utilize to tackle issues.
